Supplement Plans

With a Medicare supplement plan, also known as Medigap, you'll get more coverage to keep your out-of-pocket costs more stable.

About Medicare supplement plans

Medicare supplement plans help bridge the gap between what Original Medicare (Parts A & B) covers and the total cost of medical services. You might consider a Medicare supplement plan if you're:

- Interested in a lower deductible
- Want more predictable costs and lower out-of-pocket maximums
- Not in need of coverage for hearing, dental, and vision
- Interested in seeing any doctor who accepts Medicare / no referrals
- Looking to have nationwide coverage for when you travel

Wayne, Oakland, and Macomb counties —

All plans are available to individuals 65 years or older.

Plans A and D are also available to individuals under 65 under one of the following conditions:

- You have end-stage renal disease
- You have Lou Gehrig's disease, also know as ALS
- You have a long-term disability and have been on Social Security for more than 2 years
